DETAILS

The players will meet for one hour sessions in March and April of 2009. They will first participate at skills stations designed by professional coaches from the Poway Vaqueros. Following the skills stations, they will participate in a small-sided (four on four) scrimmage. Both the skills sessions and the fields for scrimmages will be grouped by ability, not age, so that all players will be with others who have similar abilities. Professional coaches will be accompanied by a number of high school aged Poway Youth Soccer League players, who will help coach and participate with the players. The high number of volunteers will ensure a good volunteer to player ratio.
