

Adult POINT LAB

Patient-Oriented Integrated Neurological Treatment

The University of St. Augustine's for Health Science is requesting volunteer participants to work with our students in our Neuromuscular III Adult Advanced Evaluation and Intervention Therapy Class.

Who: Adults who have neurological conditions or are diagnosed with numbness and tingling, weakness, or balance difficulties are invited to work with our students.

When: Mondays: MARCH 11, 18, 25 & APRIL 1, 2013. Each participant is expected to attend on all four Mondays for one hour sessions between 1:00 – 4:00 pm.

Where: University of St. Augustine for Health Sciences, San Marcos Campus, 700 Windy Point Way, San Marcos, CA, 92069. Building B Rooms: 208, 209, and 212.

What: Classes are coordinated and supervised by our Physical Therapy Faculty who have expertise in evaluating and treating adult neurological clients. The student physical therapists will perform evaluation procedures and design interventions to address the following:

- Strength, range of motion motor control.
- Gait, transfer and mobility
- Sensory and vestibular impairments
- Muscle tone and spasticity
- Balance impairments

IF YOU HAVE ANY QUESTIONS REGARDING THIS OPPORTUNITY, PLEASE CONTACT:

Anna Edwards, PT, MA, MBA, POINT Lab Coordinator
