

OPERATION HOUSE CALL

Pairs parents of children with disabilities with UCSD/Children's Hospital pediatric residents

Pediatric residents attend an orientation at the Exceptional Family Resource Center. The resident will schedule a "House Call" at a mutually agreeable time with family. The visit consists of an informal interview with the family.

This is an opportunity for pediatricians to learn about the unique experiences and challenges children with disabilities and their families encounter. Parents know their child the best and can provide valuable insight to the issues better than any textbook ever could!

Schedule your appointment today!
